

Time Travel Travelling

Time travel, travelling
Time travel, travelling
Time travel, travelling
Time travel travelling

Time travel, travelling, travelling on
Where many have been and
many have gone.

Time travel, travelling, coming to see
a special place to be.

Time travel, travelling, travel God's way
Not just for now but every day.

Time travel travelling, coming to see
a special place to be.

Time travel, travelling
Time travel, travelling
Time travel, travelling
Time travel travelling

Time travel, travelling, travelling far
Where singing and prayer and memories are
Time travel, travelling, coming to see
a special place for me.

Time travel, travelling, travel God's way
Not just for now but every day.

Time travel travelling, coming to see
a special place for me.

How

1. How does sun shine in the sky?
How do clouds float by?
How do seeds grow into trees?
How do leaves sway in the breeze?

*So many things to Understand
Put in place by God's hand.*

2. How do fish live in the sea?
How am I like me?
How can I think what to say?
How does night turn into day?

*So many things to understand
Put in place by God's hand.*

God Goes With Us

1. We can travel by aeroplane, by hovercraft or boat.
We can travel by horse and cart, by elephant or goat!

*We may not see where we will go,
But there's one thing it's good to know,
God goes with us every step every day,
God goes with us and He knows the way.*

2. We can travel by car or bus, by taxi or by bike.
We can travel by running fast or going for a hike...

*We may not see where we will go,
But there's one thing it's good to know,
God goes with us every step every day,
God goes with us and He knows the way.*

3. We can travel from day to day with fears and with doubt.
We can travel our whole life through by hoping it works out...

*We may not see where we will go,
But there's one thing it's good to know,
God goes with us every step every day,
God goes with us and He knows the way.*

Pilgrims Together

Rise up the hour has come
At the crossroads of time.
Children keep from falling asleep
With the moon
Dance with the sun.

Take my hand and we will come to
A mysterious land.
Pilgrims together
Travelling on.

We travel a journey of holy people
and time.
We pray to our God as we walk in
His goodness and light,
'show us the path.'

Take my hand and we will come to
A mysterious land.
Pilgrims together
Travelling on.

Pilgrims together
Travelling on.

MINSTER SONG

Words & Music: Peter Cansfield © 2003

What will I see today? What will I find today?

Pictures in windows
Colours so bright
Dancing in spaces
Flooding with light

What will I hear today? What will I find today?

Thundering music
Loud like a cheer
Making me feel like
Punching the air

*The magnificent things
In this mighty Minster
Cause us to think
Of things real and true
They tell us of one
Who is awesome, forever
Through them he is speaking
To me and to you*

What can I touch today? What will I find today?

Arches and pillars
Reaching so tall
Standing beside them
Makes you feel small

What will I see today? What will I find today?

High up, a person
Arms stretched out wide
Looking down on me
With care in his eyes

*The magnificent things
In this mighty Minster
Cause us to think
Of things real and true
They tell us of one
Who is awesome, forever
Through them he is speaking
To me and to you*

RIVER

Words & Music: Peter Cansfield ©2003

Our times are like a river
Each day the river rolls
Bringing new adventures
As each day unfolds
And we are on life's river
Sailing in the flow
Joining in a journey
That started long ago

*River (river) feel the pulse, the spray, the flow
River (river) ever moving to its goal
River (river) sailing in life's winding course
Ever flowing from the source, river*

Those who sailed before us
Left ripples where they'd been
Echoes of their moments
Building in the stream
As we sail up river
And travel back through time
Discovering where we've come from
I wonder what we'll find?

*River (river) feel the pulse, the spray, the flow
River (river) ever moving to its goal
River (river) sailing in life's winding course*

Ever flowing from the source, river

Cathedrals that through history
Remind us of the flow
Of industry and empires
Of pilgrims long ago
Of things that shaped the river
How it is today
Forever changed by one who
Gave his life away

*River (river) feel the pulse, the spray, the flow
River (river) ever moving to its goal
River (river) sailing in life's winding course
Ever flowing from the source, river (repeat)*
