

NATURE SCAVENGER TRAIL

Search for the items below on your exploration of the Minster's grounds!

1

Start

What animals can you see carved around the outside of the Chapter House?

What colours are the leaves in the Sycamore trees?

Chapter house

Can you spot a Squirrel?

What tree does this leaf belong to?

2

Education Garden

What famous fruit is grown on this tree?

3

How many logs are in our bug hotel?

4

What was this used for?

Blackbird

What tree does this leaf belong to?

Robin

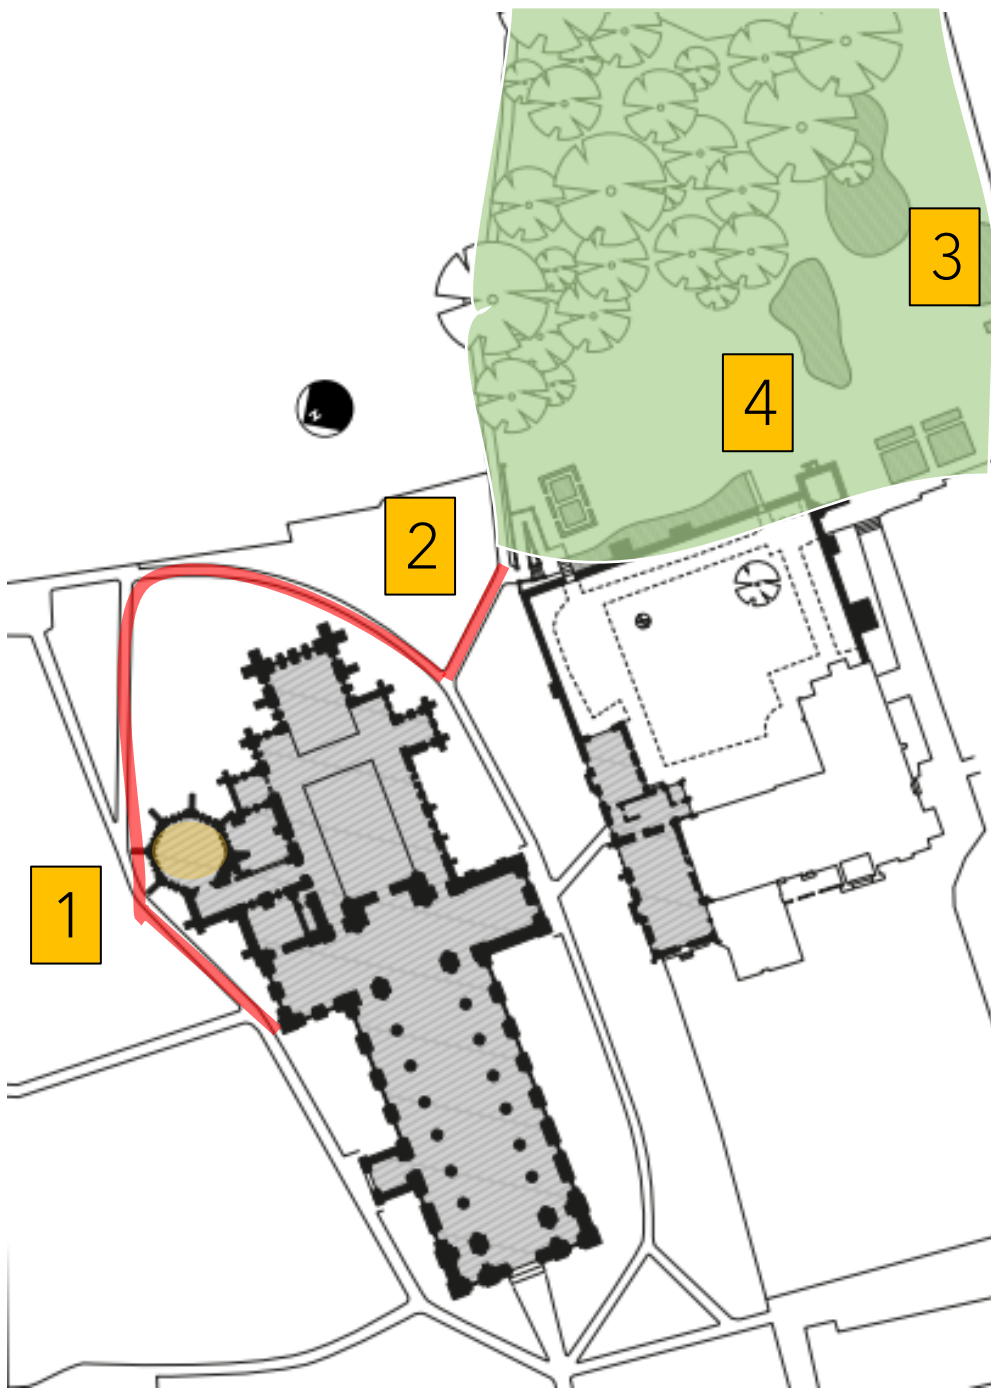

Can you find this Green Face?

End

Leaves of Southwell

NATURE SCAVENGER TRAIL

Fun Facts:

Did you know that parts of the Minster are over 900 years old and dates back to the Norman period?

There are lots of different animals on the outside walls of the Chapter House. How many can you spot?

The National Lottery Heritage Fund has given us a lot of money to help preserve the Chapter House (which is why it is closed for a while), and to improve the garden.

ACTIVITY

The 'Green Man' is a face surrounded by leaves - sometimes the leaves grow out of his / her mouth, nose and ears! They are often found in medieval Christian buildings like churches and are a symbol of our connection with nature.

At Southwell Minster, we have at least 10 'Green Men' inside the Minster's Chapter House.

Can you see if you can make your own Green Man from the leaves and sticks you find lying on the ground?

Remember to be socially distanced on your trail and keep at least 2 metres apart from others. Make sure to wash your hands after this activity.

Once you have made your Green Man, share your pictures on social media by tagging us on Facebook - @SouthwellMinster, Instagram - @southwellminster or on Twitter - @SouthwMinster or emailing them to us at education@southwellminster.org.uk

More information can be found on our website at www.southwellminster.org/leaves
