

1 Make a grand entrance

Enter the Minster through the North Porch. Look closer at the different patterns carved into the stone arches above the decorated doorway.

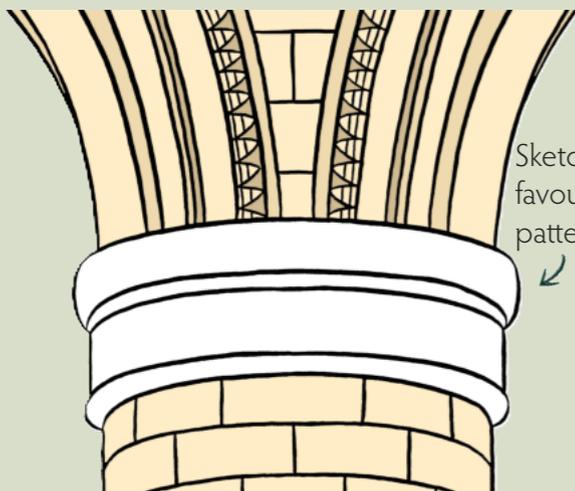

Draw lines to match up each pattern name with the right band of carving.

2 Explore the ancient Nave

This beautiful Nave is the oldest part of the Minster. It took 50 years to build all these arches standing three floors high, supported on giant stone columns. Teams of skilled craftsmen were needed to shape and carve each stone by hand.

Notice the carved decorations on the capital stones at the top of each column. Are they all the same?

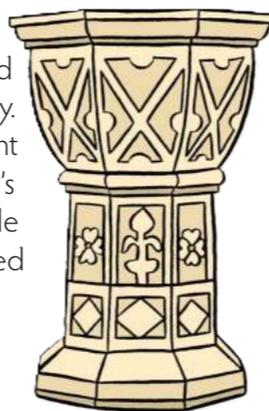

Sketch your favourite patterns.

4 Examine the stone font

This font is where today's Christians come to be baptised and welcomed into God's family. Holy water is taken from the font and sprinkled over the person's head. In medieval times, people were baptised by being dipped in a special indoor pool.

What year was this font made?

3 Gasp at the gathering of angels

The magnificent hand-painted West Window was designed in 1996 and includes hundreds of joyful angels – too many to count! The largest angels tell the story of *The Seven Days of Creation* from the Bible.

On the first day, God said, "Let there be light!"

Design your own angel window. What story will you tell?

5 Look up at the golden statue

Christus Rex or Christ the King shines down from the Nave rafters and welcomes visitors with open arms.

What shape is this eye-catching sculpture?

6 Find the Minster's oldest carving

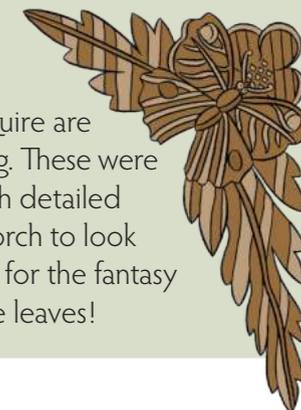

This stone, carved around 1100, may have come from the Anglo-Saxon church, which once stood on this site. It tells the story of good overcoming evil – Archangel Michael is fighting a dragon with a long curly tail.

What is Archangel Michael holding?

8 Hunt for the carved animals

The wooden pews in the Quire are where the choir come to sing. These were expertly carved in 1886 with detailed scenes from nature. Use a torch to look at the pew ends. Watch out for the fantasy creatures hidden among the leaves!

List the names of any plants or animals you find.

7 Spot the medieval face carvings

Built in 1340, the stone screen that separates the Nave from the Quire is crowded with face carvings.

king

bishop

lady

pilgrim

soldier

funny face

Notice how the most important people are placed high up. Look at both sides of the screen and see how many different types of people you can find.
