

JOSEPH HALE MILLER (1777-1842) was responsible for adapting and restoring the glass presented to the Minster by Henry Gally Knight and fitting them into the four lancet windows at the east end of the church.

He also designed and made the heraldic glass which can be seen to the north-east and to the south-east of the **sanctuary, flanking the "Gally-Knight" windows.** Installed in 1826 they carry the coats of arms of various Nottinghamshire gentry, including Gally on the north window and Knight on the south window.
